# Soul Journey from Urantia to Paradise

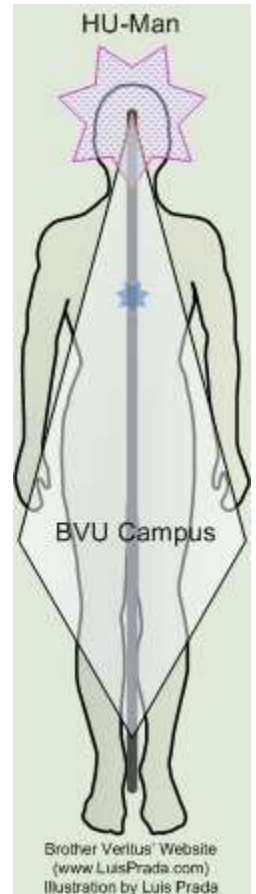

By Luis Prada

Editor and Publisher of Brother Veritus' Website  
LuisPrada.com

● Published in this website on January 12, 2015. All illustrations by the author.

This is not intended to be an in-depth narration of the journey to Paradise, only the presentation of the graphic material for better reference when reading the respective documents in the Urantia Book. This is the main intent and purpose of this publication. For detailed information consult the Urantia Book, Documents 14 and 15.

All graphics shown in top view as in viewing the capitals and their planetary clusters from above. It was chosen to make schematic representations rather than artistic interpretations for a clearer illustration of the sacred geometries of the capitals and their planetary clusters. The graphics are not made to scale and proportion. The orbits are elliptical but here they are shown circular for convenience of drawing.

## Splandon, Headquarters of Major Sector Umajor the 5<sup>th</sup> Schematic Representation

## Uversa, Headquarters of the Superuniverse Orvonton Schematic Representation

⑦ Uversa is the spiritual and administrative headquarters for approximately one trillion inhabited or inhabitable worlds.

Uversa is immediately surrounded by 7 higher universities of advanced spiritual training for ascending will creatures.

The glory, grandeur, and perfection of the Orvonton capital surpass any of the wonders of the time-space creations.

Each of these clusters consists of 70 specialized worlds containing thousands upon thousands of replete institutions and organizations devoted to universe training and spirit culture.

## Central Universe, the Paradise-Havona System Schematic Representation

⑧ Havona consists of one billion perfect worlds revolving around Paradise in seven concentric circuits. The Havona worlds consist of one thousand elements and seven forms of energy. Each world is unique. Havona natives are the children of the Trinity. There is no government on the Havona worlds. The standard time of the grand universe is the Paradise-Havona day—a little over seven minutes less than one thousand years of Urantia time. There are seven forms of life in Havona. Sin has never appeared in Havona. The Deities derive varied satisfactions from the perfect Havona universe.

## Eternal Life Journey of the Soul Schematic Representation
